somyasharma28112005@gmail.com | +91 9399189756 | India | <https://www.linkedin.com/in/somyasharma28/> | <https://github.com/Somya456> | <https://www.codechef.com/users/e23cseu2094>

SUMMARY

B.Tech CSE student with a strong foundation in ML, data analytics, and full-stack development. Experienced in building AI-powered applications and data pipelines using Python, scikit-learn, TensorFlow, and Power BI. Proven ability to deliver end-to-end projects — from data collection and modeling to deployment — with a focus on real-world impact. Actively seeking opportunities to apply data science and ML skills in a high-impact internship.

EDUCATION

B.Tech in Computer Science Engineering — Bennett University, India Expected May 2027 | CGPA: 8.69/10.0

TECHNICAL SKILLS

ML & Data Science: Python, NumPy, Pandas, scikit-learn, TensorFlow, Statistical Modeling

Data Visualization: Power BI, Tableau, MS Excel

Math Foundations: Probability & Statistics, Linear Algebra, MATLAB

Languages & Tools: C++, Java, SQL, HTML/CSS, Flask, Tailwind CSS, Git, GitHub

Core Concepts: DSA, OOP, ETL Pipelines, Data Analytics, Problem Solving

EXPERIENCE

Data Analyst Intern — NullClass

- Built ETL dashboards on real-time job analytics portals, transforming raw data into structured insights using Power BI and Tableau.
- Conducted EDA on Google Play Store datasets, applying statistical modeling to identify user behavior patterns and market trends.
- Delivered visualization reports reinforcing core ML pipeline skills: data collection → cleaning → feature engineering → insight generation.

PROJECTS

Familiar Care — AI Pet Healthcare Web App [github/Somya456/Familiar-Care](https://github.com/Somya456/Familiar-Care)

Jan – Apr 2025

- Built an AI-driven symptom analysis engine using ML classification models to identify pet health conditions with actionable recommendations.
- Integrated digital health records, real-time veterinarian consultation, and a Flask backend with RESTful APIs for 100+ pet conditions.

Shield Her - Women's Safety Application [github/Somya456/S.H.I.E.L.D-HER-A-WOMEN-SAFETY-WEB-APPLICATION](https://github.com/Somya456/S.H.I.E.L.D-HER-A-WOMEN-SAFETY-WEB-APPLICATION)

Sep 2024

- Developed a safety app with ML-assisted SOS triggering, hands-free voice-activated alerts, and real-time GPS location sharing.
- Implemented a risk detection module analyzing temporal and location patterns to proactively alert trusted contacts.

COMPETITIONS & HACKATHONS

- Smart India Hackathon (SIH)** — Sep 2024: National-level government hackathon; built a tech solution under time-bound team conditions.
- Adobe India Hackathon** — Jul 2025: Cleared online MCQ & coding assessment round.
- Flipkart Grid 7.0 (AI/ML track)** — Jul 2025: Competed in India's largest engineering challenge.
- Triwazardathon 1.0** — Jul 2025: Multi-domain competitive programming event.

CERTIFICATIONS

- Data Visualization** — Coursera, Nov 2024: Chart design, Tableau fundamentals, and communicating data-driven insights.
- Google AI Essentials** — Coursera, Jun 2026: Hands-on Google AI, responsible use of AI, and AI fundamentals. [Verify](#)
